Medical Assistance Managed Care in Pennsylvania

Pennsylvania’s Department of Human Services (DHS) contracts with managed care organizations across Pennsylvania to offer managed care to recipients of Medical Assistance under a program called HealthChoices.

HealthChoices

HealthChoices is Pennsylvania’s innovative mandatory managed care program for Medical Assistance recipients. Recipients choose among physical health managed care organizations (PH-MCOs) contracted with DHS to provide at least the same level of services as offered by ACCESS, the traditional fee-for-service program. Behavioral health services are provided by behavioral health managed care organizations (BH-MCO) that contract with DHS.

- *See UPMC for You (Medical Assistance) Contacts, Behavioral Health Services, Table A5, Welcome and Key Contacts, Chapter A.*

UPMC for You is one of the PH-MCOs offered to recipients in the following zones:

- **Southwest Zone** – Allegheny, Armstrong, Beaver, Bedford, Blair, Butler, Cambria, Fayette, Greene, Indiana, Lawrence, Somerset, Washington, and Westmoreland counties
- **Lehigh Capital Zone** – Adams, Berks, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Lancaster, Lebanon, Lehigh, Northampton, Perry, and York counties
- **New West Zone** – Cameron, Clarion, Clearfield, Crawford, Elk, Erie, Forest, Jefferson, McKean, Mercer, Potter, Venango, and Warren counties

In these counties, Medical Assistance recipients enroll in a PH-MCO, or change plans, with the assistance of independent enrollment assistance representatives. Recipients may call the **Pennsylvania Enrollment Service Consumer Support Center** at **1-800-440-3989**, Monday through Friday from 8 a.m. to 6 p.m. or visit **enrollnow.net**. TTY users should call toll-free **1-800-618-4225**.

Coordinated Care

The Member's PCP must coordinate care. If the PCP refers a Member to a network specialist and also indicates a need for diagnostic testing, the Member should be directed to a network facility for that testing. A separate referral by the specialist is not required. Upon notification by the Member, family member, Member's legal designee, or a hospital emergency department, the Member's PCP must coordinate any care related to an emergency.

Members may self-direct their care for behavioral health services, chiropractic care, dental care, routine gynecological examinations, family planning, maternity care or prenatal visits, and vision care. To verify the coverage of any service, contact **Provider Services** at **1-866-918-1595** or visit **upmchealthplan.com**.

All payments made to providers by UPMC *for You* constitute full reimbursement to the provider for covered services rendered. Please refer to the provider contract for specific fee schedules. If UPMC *for You* imposes copayments for certain covered services and a Member cannot afford to pay the copayment at the time of the service, providers must render covered services to the Member despite nonpayment of the copayment by the Member. This shall not preclude providers from seeking payment for the copayments from Members after rendering covered services.

A provider may bill a UPMC *for You* Member for a non-covered service or item only if, before performing the service, the provider informs the Member:

- of the nature of the service;
- that the service is not covered by UPMC *for You* and UPMC *for You* will not pay for the service; and
- the estimated cost to the Member for the service.

The provider must document in the medical record that the Member was advised of and agreed to accept financial responsibility for the service.

Clarer Look at a Primary Insurance Copayments

If the Member has a primary insurance and there is a copayment, coinsurance or a deductible due from the Member, that amount is included in the coordination of benefits calculation.

- If the primary insurance's payment is greater than the UPMC *for You* fee schedule payment, the provider must accept the primary insurance payment as payment in full. The Member would not be responsible for the amounts applied to a copayment, coinsurance or deductible by the primary insurance.
- If the primary carrier's payment is less than the fee schedule, UPMC *for You* will coordinate benefits and pay up to the fee schedule amount, i.e., the primary carrier payment and the UPMC *for You* payment combined would not equal more than the UPMC *for You* fee schedule. The Member would not be liable for any copayment, coinsurance or deductible applied by the primary insurance. The provider is required to accept the payment as payment in full and cannot balance bill the Member except for Medical Assistance-permitted copayments.
 - See *Coordination of Benefits*, Claims, Chapter H.
 - See *Determining Primary Insurance Coverage*, Member Administration, Chapter I.

Standards for Member Access to Services (Wait Time for Appointments)

The Department of Human Services (DHS) standards require that Members be given access to covered services in a timely manner, depending on the urgency of the need for services, as follows:

- A Member's average office waiting time for an appointment for routine care is no more than **30 minutes** or at any time no more than up to **one hour** when the physician encounters an unanticipated urgent medical condition visit or is treating a Member with a difficult medical need.
- If a Member has an emergency, the provider must see the Member immediately or refer the Member to the emergency department.
 - See *Table E2, Appointment Standards*, UPMC for You (Medical Assistance), Chapter E.

If the Member has an unusual nonemergency transportation need due to a medical condition, the UPMC Health Plan Special Needs Department can be contacted for assistance. Oral Health Intervention Program

UPMC for You has an oral health intervention program that uses Public Health Dental Hygiene Practitioners (PHDHPs) to provide oral health education, and dental home connections as well as Member outreach. UPMC for You encourages the provider community to refer Members and/or caregivers to the PHDHP team as part of the oral health discussion at the time of well visit for oral health education. The UPMC for You PHDHP team has both telephonic and regional team members—the telephonic team supports members across all counties; the regional team supports members residing within a specific county. The PHDHP team can be reached Monday through Friday from 8 a.m. to 4:30 p.m. at the following numbers:

Closer Look at Laboratory Services

The Department of Human Services requires that a current Clinical Laboratory Improvement Amendments (CLIA) certification be on file with the Office of Medical Assistance Programs (OMAP) for any provider who renders laboratory services to Medical Assistance Recipients. All laboratory testing sites, including physician's offices, are required to have a CLIA certificate. The CLIA certificate and accompanying identification number identify those procedures that the laboratory is qualified to perform.

There are several different types of CLIA certifications:

- Certificate of Accreditation
- Certificate of Compliance
- Certificate of Provider Performed Microscopy Procedures (PPMP)
- Certificate of Registration
- Certificate of Waiver (CLIA Waived)

Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs) are required to submit their CLIA certificates even though they are paid an all-inclusive per encounter payment rate that includes laboratory tests provided at the time of a face-to-face visit. Hospital laboratories must be Medicare certified or certified by the Pennsylvania Department of Health (DOH) as meeting the standards comparable to those of Medicare. Out-of-state hospitals do not need to be licensed by DOH but must be currently Medicare certified.

Emergency Care

UPMC for You will cover care for emergency medical conditions with acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:

- Serious impairment to bodily function; or
- Serious dysfunction of any bodily organ or part.

Closer Look at Emergency Care

The hospital or facility must contact the **Utilization Management Department** by accessing **Provider OnLine** at upmchealthplan.com/providers within **48 hours** or on **the next business day** following an emergency admission that results in an inpatient hospital admission.

Redirected Emergency Department Visit

If a Member is instructed by their PCP to come into the office, but instead goes directly to the emergency department and does not have an emergency medical condition, the visit may be considered a redirected emergency department visit. Such visits are subject to review on a case-by-case basis to determine the appropriate level of reimbursement.

Alert—Redirected Emergency Department Visit

Within **24 hours** of redirecting an emergency department visit, the PCP must contact the Member with any alternative care arrangements, such as an office visit or treatment instructions.

An abortion is covered when a physician certifies that due to a condition, illness, or injury, an abortion is necessary to prevent the death of the woman, which is a medical judgment to be made by the certifying physician. The reporting requirement is waived if the Member was the victim of rape or incest but, in the physician's medical judgment, was physically or psychologically incapable of reporting the crime. The physician must give the reasons for the waiver on the Physician Certification for Abortion Form and must obtain a signed statement from the woman indicating she was a victim of rape or incest and that she did not report the crime. A Recipient Statement Form is not needed for abortions necessitated by life-threatening conditions, illnesses, or injuries.

Health management programs are an important component of UPMC *for You*'s efforts to improve Members' health by providing intensive care management for Members with specific chronic illnesses.

The goals are to improve clinical outcomes and quality of life. The program is structured to identify and outreach to Members with chronic conditions. Nurse Care Managers will assess Members' needs, develop a coordinated care plan that is created with Members' input, and monitor Members' progress with that plan. An assessment of Members' medical and behavioral health, compliance status, use of self-monitoring tools, and their understanding of the condition are completed to determine areas for focused education or care coordination. All interventions are aimed at increasing Members' knowledge of their condition and improving their ability to manage their disease.

A specialized team of health coaches (nurses, social workers, dietitians, exercise physiologists, counselors, and health educators), in collaboration with the Members' providers, work to accomplish these goals through Member education, coordination of care, and timely treatment.

UPMC *for You* offers the following types of health education classes:

- Breastfeeding
- Diabetes management
- Maternity
- Smoking cessation
- Nutritional counseling

Contact the **Health Management Department** at **1-866-778-6073 (TTY: 711)** for information on education classes.

In addition, these programs provide help for Members to manage their chronic illnesses through preventive practices and adherence to their treatment plans. Health management programs also help form connections with community support groups and agencies. There are also programs to assist with lifestyle risk goals such as smoking/tobacco cessation, weight management, nutrition, stress management, and physical exercise. Members enrolled in these programs receive educational materials and have frequent clinical sessions with their health coach.

Providers who serve Members who would benefit from these health management programs should contact **Health Management** at **1-866-778-6073** for information and enrollment. Health Management staff is available Monday through Friday from 7 a.m. to 8 p.m. and Saturday from 8 a.m. to 3 p.m.

Program Exception Process

The program exception process occurs when a provider requests a Utilization Management review of a service which is included in the Member's benefit package but is not currently listed on the MA Program fee schedule to determine if an exception should be made based on medical necessity. The process also applies to benefit limit exception requests for additional treatment for a Member who has exhausted the benefit limit (i.e., duration or quantity) of a particular service.

The Utilization Management Department will consider requests by providers for program exceptions and benefit limit exceptions for UPMC *for You* Members.

Providers may submit program exception or benefit limit exception requests to **Utilization Management** by submitting a request through **Provider OnLine** at: upmchealthplan.com/providers and entering the authorization request, or by sending a letter to:

**UPMC Health Plan
Attn: Utilization Management
U.S. Steel Tower, 11th Floor
600 Grant Street
Pittsburgh, PA 15219**

A provider or the provider on behalf of the Member must submit the following information to request an exception:

- Member's name
- Member's address and telephone number
- Member's UPMC *for You* Member ID
- A description of the service for which the provider or the Member is requesting an exception
- The reason the exception is necessary
- Supporting clinical documentation demonstrating the medical necessity of the service/item

The provider may request a program or benefit limit exception before or after the service has been delivered. A Member may only request a benefit limit exception before the service is delivered.

For an exception request made before the service has been delivered, UPMC *for You* will respond within **21 days** upon receipt of the request. If the provider indicates an urgent need for a quick response, UPMC *for You* will respond within **48 hours** upon receipt of the request.

If a service that is not on the fee schedule or normally requires prior authorization is delivered in an emergency UPMC *for You* will respond within **30 days** upon receipt of the request. An exception request made after the service has been delivered must be submitted by the provider through the provider appeal process no later than **30 days** from the date UPMC *for You* rejects the claim. Exception requests made after **30 days** from the claim rejection date will be denied.

Both the Member and the provider will receive written notice of the approval or denial of the exception request. For exception requests made before the service has been delivered, if the provider or recipient is not notified of the decision within **21 days** of the date the request is received, the exception will be automatically granted.

A provider may not hold the Member liable for payment and bill the Member for services that exceed the limits unless the following conditions are met:

- The provider advised the Member, before the service was provided, that the Member has exceeded the limits.
- The provider advised the Member, before the service was provided, that he or she will be responsible for payment if the exception is not granted.
- The provider has requested an exception to the limit and the request was denied.

Services are provided under the direction of the individual's PCP. When possible, it is preferable for the child to receive the examination and treatment from the same provider. If the PCP is unable to perform an examination or treatment, the provider must arrange for the services to be performed by another network provider. The PCP must coordinate and monitor the care provided by other practitioners and maintain a centralized medical record.

A complete listing of services, schedule, guidelines and other information can be found on the UPMC Health Plan web site and within Medical Assistance Bulletins.

- See *Other Resources and Forms, Appendix E.1*, UPMC for You (Medical Assistance), Chapter E.

Initial EPSDT Visits for Newborns

The first EPSDT visit should be the newborn physical exam in the hospital, providing that it includes all the screening components.

The first follow-up visit for the newborn should be provided within **three to five days** after discharge from the hospital.

Diagnosis and Treatment in the EPSDT Program

If a screening examination or an encounter with a health professional results in the detection of a suspected problem, the child must be evaluated as necessary for further diagnosis and treatment. The EPSDT program covers the provision of all medically necessary health care services required to treat a condition diagnosed during an encounter with a health care professional.

If a provider suspects developmental delay, the provider must refer the child for Early Intervention Services by contacting **CONNECT** at **1-800-692-7288** and should complete the **Pediatric Care Management Early Intervention** referral form located on the UPMC Health Plan website at upmchealthplan.com/providers/medical/resources/guidelines/epsdt-guidelines.aspx.

If a provider detects elevated blood lead levels, the provider must coordinate care with the **Pediatric Care Management Department** at **1-855-772-8762** or by email at pediatriclead@upmc.edu. A referral to **CONNECT** at **1-800-692-7288** should be made as appropriate.

Cl^oser Look at Providing Services to SSI or SSI-related Members

At the first appointment following enrollment of a Supplemental Security Income (SSI) Member or SSI-related Member (i.e., spouse and dependents), the PCP should conduct a complete assessment to determine the child's health care needs over an appropriate period (**not to exceed one year**).

The initial appointment should occur within **45 days** of enrollment with UPMC for You, unless the Member already is receiving care with a PCP or specialist.

The assessment should include the child's need for specialty care, which will be discussed with the caregiver, custodial agency and, when age-appropriate, the child. This assessment becomes part of the child's medical record.

The PCP, at the time of the initial exam, must make a recommendation regarding care management services. With the caregiver's or custodial agency's consent, the PCP should contact **Pediatric Care Management Department** at **1-855-772-8762 (TTY: 711)** with a referral for care management services.

Childhood Lead Poisoning Prevention

Providers should administer childhood lead poisoning prevention services according to current guidelines from the Centers for Disease Control and Prevention, which sets the standard for comprehensive childhood lead poisoning prevention services.

PCPs should conduct blood lead testing or refer the testing to a participating laboratory in accordance with the EPSDT Periodicity Schedule. Children with elevated lead levels should be identified on the CMS-1500 claim form utilizing the appropriate diagnosis code and EPSDT modifiers. PCPs who discover Members **younger than 21 years old** with blood lead levels **equal to or greater than 5µg /dL** should order an Environmental Lead Investigation (ELI) and contact the **Special Needs Department** at **1-866-463-1462**.

UPMC for You pays for environmental lead investigations for children with a blood lead **levels equal to or greater than 5µg /dL (via venous blood lead level)**. An ELI is an in-home assessment to determine if the cause of lead is within a member's home. To order an ELI a provider must complete and submit the ELI request form found at: p.widencdn.net/n22t3b/providers_environmental-lead-investigation-request-form_web to pediatriclead@upmc.edu

Environmental lead investigation is completed in accordance with the PA Department of Health recommendations. Environmental lead investigators possess current certification from the Pennsylvania Department of Labor and Industry as an environmental risk assessor or a lead inspector.

Care Management services are available to any member/family with an elevated blood lead level. To refer a member/family to care management services contact the **Pediatric Care Management Department** at **1-855-772-8762** or outreach to **pediatriclead@upmc.edu**.

- See *EPSDT Periodicity Schedule, Resources and Form, Appendix E.1*, UPMC for You (Medical Assistance), Chapter E.
- See *Medical Assistance Bulletin 01-18-10*, Environmental Lead Investigation effective 8-22-2018.

Closer Look at High Lead Levels

PCPs who discover Members **younger than 21 years old** with blood lead levels equal to or **greater than 5µg/dL** should order an environmental lead investigation and contact the **Pediatric Care Management Department** at **1-855-772-8762 (TTY:711)** or outreach to **pediatriclead@upmc.edu**. Members with elevated blood levels are also appropriate for early intervention services. To arrange these services providers must contact **CONNECT** at **1-800-692-7288**. The referral to **CONNECT** must be documented in the medical records. Children with elevated lead levels should be managed according to CDC recommendations.

EPSDT Expanded Services

Expanded services are those services required to treat conditions a provider detects during an encounter with a Member who is **younger than 21 years old** that may or may not normally be covered by the Medical Assistance FFS program (ACCESS) such as certain medical supplies or durable medical equipment.

All requests for EPSDT expanded services must be authorized by **Utilization Management Department** by submitting a request through **Provider OnLine** at **upmchealthplan.com/providers**. The request must include a letter of medical necessity describing the rationale for the expanded services and the benefit the service will provide the Member. Utilization Management will review the prior authorization request for medical necessity with the medical director. Urgent requests are processed within **24 hours** to ensure that the child's medical care is not jeopardized.

The Member and provider will be notified of the decision regarding the request for service within **21 days** of the receipt of the request. This notice includes denials, reductions, or changes in scope or duration of services. If the decision to approve or deny a covered service or item is not made **by the 21st day** from the date the request was received, the service or item is automatically approved.

- See *Services Requiring Prior Authorization*, Utilization Management and Medical Management, Chapter G.

EPSDT Claims Submission and Payment

All PCPs must perform EPSDT screens according to the periodicity schedule.

- See *EPSDT Periodicity Schedule, Resources and Forms, Appendix E.1*, UPMC for You (Medical Assistance), Chapter E.

To receive reimbursement for an EPSDT screening, providers should submit their claims electronically or complete a CMS-1500 form utilizing the appropriate codes and modifiers, and send the claim **within 90 days of the date of service** to:

If your doctor or dentist believes that waiting **30 days** to get a decision about your First Level Complaint or Grievance, or **45 days** to get a decision about your Second Level Complaint, could harm your health, you or your doctor or dentist may ask that your Complaint or Grievance be decided more quickly. - You must ask UPMC *for You* for an early decision by calling **UPMC *for You*** at **1-800-286-4242 (TTY: 711)**, faxing a letter or the Complaint/Grievance Request Form to **412-454-7920**, or sending an email to: **upmcforyouappeals@upmc.edu**.

Expedited Fair Hearing

What Can I Do if My Health Is at Immediate Risk?

The Bureau of Hearings and Appeals will schedule a telephone hearing and will tell you its decision within **3 business days** after you asked for a Fair Hearing.

If your doctor does not send a written statement and does not testify at the Fair Hearing, the Fair Hearing decision will not be expedited. Another hearing will be scheduled and the Fair Hearing will be decided using the usual time frame for deciding a Fair Hearing.
